CORE COMPETENCIES

- Software Testing & Quality Assurance
- Test Development & Execution
- Project Execution
- Test Strategy & Plans
- Test Automation Frameworks
- Client / Stakeholder Engagements
- Agile & Scrum Methodologies
- Software Testing Lifecycle
- Bug Detection & RCA
- Requirement Gathering & Analysis
- Test Documentation & Metrics
- Defect Management & Reporting

SOFT SKILLS

Analytical	Problem-solving
Collaboration	Communication
Interpersonal	Relationship Building

GOWTHAM P.

Software Testig & QA

PROFILE SUMMARY

- Possess over 2 years of experience in the technology sector, focusing on **automation testing and quality assurance** to ensure the delivery of superior software products.
- Cultivated an in-depth knowledge of **multiple testing frameworks and methodologies**, which play a crucial role in ensuring comprehensive quality assurance and coverage.
- Showcased proficiency in **utilizing automation testing tools like Tosca, Java & Selenium**, which have been essential in improving testing accuracy and operational efficiency.
- **Executed agile testing methodologies that led to a decrease in testing cycles**, demonstrating adaptability to changing project requirements and objectives.
- **Technical capabilities in managing complete STLC** entailing scripting, analyzing & implementing test scripts, test cases, test plans, test processes, defect reporting, bug tracking & report generation of different applications / products.
- **Leading implementation of test strategy**, test plans & test execution of the product
- Engaged in **process improvement initiatives that have streamlined testing workflows**, resulting in a more agile & responsive testing environment.
- Exceptional stakeholder engagement skills, fostering strong relationships with clients and team members, **aligning project goals and ensuring successful project delivery**.
- **Strong communicator and team player**, with a keen attention to detail and a proactive approach to problem-solving.

WORK EXPERIENCE

Nov'21 – Jan'24: Infosys Limited  
System Associate – Automation Testing

Responsibilities:

- Orchestrated the creation of a sophisticated regression testing suite, which significantly **enhanced the overall efficiency by 30%**.
- Championed the adoption of Tosca for automation testing, leading to a substantial decrease in manual testing efforts and streamlining the testing workflow.
- Engaged in comprehensive requirement gathering sessions, ensuring project objectives were meticulously aligned with client expectations and enhancing overall satisfaction.
- Executed agile testing methodologies, resulting in a **notable reduction of the testing cycle by 20%**, thereby accelerating the delivery of high-quality software products.
- Identified, documented, and tracked issues and defects within the bug tracking system, ensuring timely resolution and maintaining high standards of software quality.
- Developed and maintained accurate test data, which was crucial for generating meaningful results and ensuring the reliability of testing outcomes.
- Defined and monitored key performance metrics to assess software quality and performance, facilitating continuous improvement in testing processes.
- Conducted daily analyses of regression scripts, providing the team with insights into application health and ensuring proactive issue resolution.
- Developed & executed a test strategy that integrated both manual and automated testing approaches, ensuring thorough coverage and high-quality deliverables.
- Collaborated with cross-functional teams to gather requirements and provide feedback on software functionality, enhancing the overall user experience and product quality.
- **Achieved an impressive 98% defect detection rate** prior to production, which played a critical role in maintaining the integrity and quality of software releases.

EDUCATION

- **Pursuing:** MCA from Jain University, Bengaluru
- **2021:** B.Sc. (Electronics & Communication Systems) from SKASC, Coimbatore
- ISTQB Certified Foundation
- ISTQB Agile Tester
